Re: Build America, Buy America Act (BABA)

Dear Valued Friedman Tubular Customer:

This letter confirms that steel pipe products manufactured by Friedman Tubular, located in Lone Star, TX, an operating division of Friedman Industries (NASDAQ: FRD), are produced domestically in the United States.

In addition, when requested on the purchase order, Friedman Tubular API products can be supplied to meet Build America Buy America (BABA) requirements, including 100% made in the USA with steel that is melted in the USA.

As always, should you have any questions or require any additional information, please feel free to reach out to us. Any opportunity to be of service to you is welcomed and appreciated.

Sincerely,

Ryan Watkins
